Fourth-Year Computer Information Systems

Currently pursuing a Bachelor's degree in Computer Information Systems at the Hashemite University. Passionate about Node.js development, problem-solving. Proficient in JavaScript, Express.js, PostgreSQL, RESTful API design, and building efficient server-side applications. Known for a communicative, people-oriented personality, with a strong drive for continuous growth and learning .

EDUCATION

Bachelor in Computer Information Systems

The Hashemite University • Zarqa • GPA: 3.10

CERTIFICATIONS

UI/UX Figma • 10/2024

Zain Zinc

PROJECTS

Hashemite Training Center

Designed and developed the HTC , a comprehensive web application connecting students with field training opportunities. The platform enables users to search for training programs, submit CVs, explore courses, and monitor progress. Implemented advanced filtering options and secure authentication via Google accounts. Developed a robust backend using Node.js, delivering an intuitive solution that bridges the gap between academic learning and real-world professional experience.

Technologies Used:

- **Backend:** Node.js, Express.js
- **Database:** PostgreSQL (pgAdmin for database management)

VOLUNTEERING & LEADERSHIP

National Children's Museum Association

- Amman

Assisting in various museum activities, including using Excel for data management and supporting educational programs.
